#### Security features

We take the security of your home and those who live in it very seriously. We've been doing that for over 30 years.

Every Safedoors doorset is manufactured using robust materials designed with security at its core. They are manufactured with a fully reinforced 70mm PVC-U outer frame and high security locking system, which includes multipoint locking system and anti-bump cylinder. Our Platinum range of doors come with a responsibly ourced, composite timber core construction offering increased strength and security.

We even offer an enhanced security upgrade to the Secured By Design specification, recommended by the police authority for additional peace of mind. Ask your salesman to explain the options available to you when placing your order.

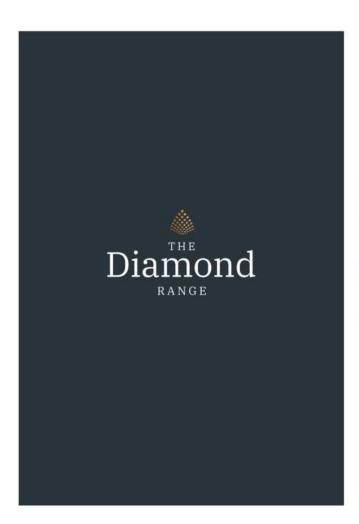

#### Energy efficiency

All Safedoors are assessed under a scheme by the British Fenestration Rating Council (BFRC) called the Door Set Energy Ratings Scheme (DSER).

This scheme follows a familiar rating system often found in common household items such as fridges and televisions. The scheme shows how energy efficient each door is on a stiding scale 'A++' rated being the highest achievable. This rating is increasingly important as it could reduce your heating bills significantly by less heat escaping through an ill fitting or thermally inefficient doorset.

Safedoors are designed and manufactured to provide the highest Door Set Energy Ratings (DSER), keeping your homes warm, cosy and draught free!

#### DIAMOND INTRODUCTION

## Energy efficient performance, low maintenance

Our Diamond Range of composite doors are manufactured with a high insulation foam core, which delivers outstanding thermal performance, to keep the heat in and the cold out. Durable glass reinforced plastic GRP) skins provide a rich, authentic timber grain in a range of traditional and contemporary colours that are highly resistant to denting, peeling, flaking or fading.

High security locking and reinforced PVC-U frame comes as standard to protect you, your family and your home.

#### What makes a Diamond door different?

- Choice of popular traditional and contemporary styles
- □ Range of attractive colour options to enhance any property
- Encapsulated edge banding around the perimeter of the door for a neat, waterproof finish
- ☐ High insulation foam core, for superior energy efficiency
- Authentic timber grained GRP skins
- Available with white internal face only

#### **COLOUR OPTIONS**

Our Diamond range of doors offer a large selection of colour options. Our most popular colours are available from our standard range, or alternatively if you are looking for something a bit different, there are some exquisite colours in our non standard range that will make your property stand our property stand on the property stand of the property stand or the property

#### PLATINUM INTRODUCTION

#### Solid to the core

Our Platinum Range are the ultimate in composite door technology. Solid engineered timber core provides a reassuring strength and rigidity that other composite doors fall to provide, not to mention its proven resistance to warping, twisting and bowing. Platinum doors also use advanced Cool Skin heat reflective door skin technology to reduce heat absorption, and offer improved scratch resistance and weather performance. Platinum doors also offer a perfect match if you want to match your outer frame with your door leaf.

#### What makes a Platinum door different?

- $\hfill \square$  Choice of popular style to suit all tastes
- ☐ High performance engineered timber core
  ☐ Cool Skin heat reflective door skin technology
- ☐ Perfect frame & door leaf colour matching option
- ☐ Encapsulated edge banding around the perimeter of the door for a neat, waterproof finish
- Available with coloured internal faces

#### Platinum range - select a style

The Platinum range is available in a choice of colours that enhance the rich deep grain appearance that no other door can match. And if you're looking for a truly coordinated look to your home. Platinum doors are available with a perfectly matched frame, should you require it.

#### Standard colours

Rosewood and Cherrywood colours are only available on the Westminster and Blenheim doors.
